PREVIOUS EMPLOYMENT

HealthNet - Indianapolis, IN (National Health Service Corps Commitment) 08/2021 - 09/2023
◇ Served as the sole pediatric dentist in a multi-clinic Federally Qualified Health Center. Primarily patients on sliding fee scale or Medicaid. 40 hr/week. Offered treatment using nitrous oxide, due to limitations in access to OR time and site approval for moderate sedation protocols. Ran multiple columns with 3 EFDAs. Plan to return to delivering moderate sedation and GA treatment when established in new position. NHSC Service completion 8/15/2023.

COMMUNITY SERVICE

American Dental Association - Give Kids A Smile, VCU 06/2016 - 06/2019
◇ Provided free dental services for underserved children in the Richmond, VA community
Virginia Dental Association Foundation - Mission of Mercy Projects 06/2012 - 06/2019
◇ Provided free dental services, including restorative and prophylactic treatment: Portsmouth, VA (2018), Special Olympics Special Smiles (2016-2019), Grundy, VA (2013, 2014)

RESEARCH

Impact of Autism on Dental Care and Associated Financial Burden 07/2019 - 06/2021
◇ Data collection project investigating the association between cooperation of children with autism spectrum disorder and the procedural types/costs in clinical vs general anesthesia settings
Undergraduate Research Assistant, VCU Philips Institute for Oral Health Research 05/2011 - 7/2014
◇ Collected inductively coupled plasma optical emission spectrometry data to investigate mechanisms of *Streptococcus sanguinis* virulence for infective endocarditis
Crump, K. E., Bainbridge, B., Brusko, S., Turner, L. S., Ge, X., Stone, V., Xu, P., and Kitten, T. (2014). The Relationship of the Lipoprotein SsaB, Manganese, and Superoxide Dismutase in *Streptococcus Sanguinis* Virulence for Endocarditis. *Molecular Microbiology*.
